RODMENA

Capability statement

rodmena.com · October 2026

WHO WE ARE

Our platforms come from about 20 years of engineering and open-source work and a decade of planning by our founder. The lead products are Highway, Vellum, Provenance, Ledger and AgentBus, for organisations that need to keep data in the UK, avoid depending on one technology supplier, and run processes that can be audited. RODMENA LRS and RODMENA cmi5 launch e-learning courses and keep their records. Client and financial details are shared with buyers privately.

WHAT WE DO

- **Software platform development.** We design and deliver bespoke platforms end to end, from the first architecture review to a service running in production.
- **Distributed systems.** We build fault-tolerant systems that scale horizontally and stay reliable under load, using established patterns for concurrency and messaging.
- **Workflow automation.** We design and implement durable workflows, including event-driven flows, steps that wait for a person and custom processes. Where it suits, we deploy and configure our Highway engine for them.
- **Cloud and data infrastructure.** We design and build cloud and data infrastructure. Environments can be rebuilt from their own definitions, monitoring shows what is happening, backups have been tested by restoring from them, and you know the running cost before the bill arrives.
- **Integration.** We connect systems, APIs and third-party services. We move legacy platforms to modern infrastructure in stages without a big-bang migration.
- **Support and consultancy.** Ongoing support, training and engineering consultancy for the systems you depend on, from the engineers who build and run our own.

PLATFORMS WE BUILD AND RUN

- **Highway** workflow engine
- **Vellum** subject access requests
- **Provenance** bill of materials
- **Trace** commercial record
- **AgentBus** agent message bus
- **Knowledge base** documentation
- **MailApi** email api
- **reTunnel** ingress
- **RODMENA CI** continuous integration
- **Futex** human-in-the-loop approvals
- **TokenGate** quota management
- **Uptime.Systems** uptime monitoring
- **Ledger** financial infrastructure
- **Haven** secret management
- **RODMENA ID** single sign-on
- **RODMENA LRS** learning records (available on request)
- **RODMENA cmi5** learning delivery (available on request)

ASSURANCE

Cyber Essentials certified, whole organisation (certificate 00d24b59-7739-4d97-bb66-341ac50ef018, valid until 30 September 2027). Also held: ICO Data Protection Registration, NHS Data Security and Protection Toolkit (DSPT): Standards met. Cyber insurance in place. Evidence available on request from security@rodmena.co.uk. ISO/IEC 27001 and Cyber Essentials Plus are on the certification roadmap; professional indemnity, public liability and employer's liability cover is in place under one policy with CFC Underwriting. The current status of every certification, insurance policy and company policy is published at rodmena.com/trust/. This website uses no cookies, analytics or trackers, and publishes a responsible-disclosure policy (RFC 9116 security.txt).

COMPANY FACTS

LEGAL NAME
RODMENA LIMITED

COMPANY NUMBER
16472788 (England and Wales)

REGISTERED OFFICE
14 Keppel Row, America House, Flat 2, London, England, SE1 0FB

DIRECTOR AND PSC
Farshid Ashouri

D-U-N-S
23-382-8746

VAT NUMBER
GB524260713

PPON (FIND A TENDER)
PZYW-7454-PVXD

SUPPLIER SHARE CODE
gdrpr8zt

GOVERNMENT AI AGREEMENT
GCA AI Dynamic Purchasing System (RM6200), appointed supplier

SIC CODES
62012, 58290
